AK - NISM-Certified RA No tips, no guarantees, no upsell traps 5,000+ learners

NAME THE VILLAIN

You know the playbook by now.

Because you've probably been on the receiving end of it.

- ✗

The “guru” with a **rented supercar** and a screenshot of one winning trade.
- ✗

The “educator” who’s really just selling a **private tips group**.
- ✗

The course that’s 90% theory, 10% useful, and 100% followed by an **“advanced” course** you also “need”.
- ✗

The promise of **“₹X a day, guaranteed”**, aimed straight at your hope.

It works because losing money is painful and hope is powerful. But here's the truth SEBI's own data confirms: **~9 in 10 traders lose** — and the people selling the dream are a big part of *why*.

You weren’t gullible. **You were targeted.**

THE HEART OF IT · THEM VS US

The hype industry, line by line — and what we do instead.

Same six promises you've heard a hundred times. Read across each row.

THE HONEST METHOD

Substance behind the stance.

Four principles, each deliberately the opposite of the hype playbook. This is the part attitude alone can't fake.

- 01**

Independence over dependence

You leave able to trade on your own — not hooked on anyone's calls.
- 02**

Risk before reward

Capital preservation is taught first, because surviving is the prerequisite to winning.
- 03**

Process over predictions

Rules and a written plan, not tips and hot takes.
- 04**

Honesty over hype

The odds and the disclaimers are front-and-centre, not buried in fine print.

— A method you can take with you — not a subscription you're trapped in. —

WHY THIS EXISTS

“I got tired of watching beginners get scammed by people who should know better.

So I built the school I wish they'd found first.”

I've watched too many smart, hopeful people hand their savings to someone with a rented car and a screenshot. Not because they were foolish — because the lie was well-made and no one had taught them the difference.

So this isn't a tips desk in disguise. It's an education — the one I wish existed when the people I care about needed it.

TRUST, RESTORED

What people say when no one sold them a dream.

- “

I'd been burned by a tips group before — lost money and trust. This was the first place that didn't try to sell me a dream. They told me the hard truth, taught me a real process, and never once pushed an upsell.

VT **Vikram T.**
Started after a ₹1.2L loss elsewhere
- “

What sold me was what they didn't promise. No guarantees. Just honesty and actual teaching. That's rare.

SB **Sneha P.**
Former “signals group” subscriber

THE CURRICULUM

What the gurus skip.

Everything a tip-seller leaves out — because none of it sells a dream, and all of it makes you independent.

So you're never scammed again — you'll see the playbook from the inside.
- 02**

The part tip-sellers never teach, because it doesn't sell dreams.
- 03**

Reading price yourself

Independence from anyone's calls — your eyes, your judgement.
- 04**

Building your own plan

Rules over tips. A written system you actually follow.
- 05**

Trading psychology

Why hope and FOMO quietly cost you money — and how to defuse them.
- 06**

Spotting a trading scam

A literal module on red flags, so you can protect yourself and others.
- 07**

Standing on your own

Observed, educational practice. No signals, no hand-holding for life.

FREE & GENUINELY USEFUL

How to spot a trading scam.

Tick every red flag you've already seen out there. This is a whole module — here's the checklist, free.

Red flags spotted 0 / 8

☐ “Guaranteed returns” or a fixed “₹X per day”

☐ A rented supercar shown as proof of skill

☐ A private “tips” or “signals” group you must pay to join

☐ Screenshots of winning trades — never the losses

☐ Pressure to buy now: “only 3 seats left”

☐ An “advanced” course you “need” right after the first

☐ No mention of risk, drawdown, or that most traders lose

☐ A SEBI registration you can't verify — or none at all

Tick the ones you've seen in the wild.

If a “trading academy” ticks even one of these — walk away. We built ours so it ticks **none**.

WHAT YOU ALSO GET

No “advanced tier” dangled in front of you later. What's here is what you get — tools you keep and use on your own.

ASK THE HARD ONES

Questions a skeptic should ask.

- How do I know you're not just another guru?

Fair question — start with what we refuse to do: no tips, no guarantees, no profit screenshots, no upsell ladder. Judge us by the free masterclass before you pay a single rupee.
- Do you have a private tips / signals group?
- Why no profit screenshots?
- Do you guarantee profits?

- 7**

7-day, no-questions-asked refund

No traps. No “processing fee.” No guilt.
- The whole point is that we're not like them — so the refund policy isn't either. If it's not for you, you get your money back. Simple.

Stop funding gurus. Start learning from someone honest.
